PROFILE

React.js & Flutter Front-End Developer with 1 year of hands-on experience in modern UI development, Redux state management, RESTful API integration, and component-based architecture. Experienced in building SaaS dashboards and mobile apps with strong focus on performance and user experience.

PROFESSIONAL EXPERIENCE

Front End Developer, RegenSportz

📅 NOV 2024 - OCT 2025 📍 NOIDA, INDIA

- Built responsive React.js and Flutter apps for the RegenSportz platform, focusing on reusable components, REST API integration, and optimized Redux state management. Improved UI performance, implemented Firebase notifications, and contributed to attendance and ticket management modules.

EDUCATION

Computer Science, IIMT COLLEGE OF SCIENCE AND TECHNOLOGY

📅 SEP 2022 - JUN 2025 📍 GREATER NOIDA, INDIA

- Built hands-on projects with React.js, Flutter, and Node.js, including an Employee Attendance System and multi-step Registration App, while mastering SDLC, API integration, and UI/UX design through coding challenges and hackathons.

PROJECTS

University Management System, Unisys

📅 JUL 2025 - AUG 2025

Link - <https://betaobafrontend.unisys.online>

- Developed a **role-based SaaS platform** for universities with dashboards for students, professors, and admins.
- Built with **React.js**, **Tailwind CSS**, and **Django REST API**, integrating **AI-powered exam and question bank generation**.
- Implemented **secure authentication**, **multi-institution support**, and deployed on **Google Cloud** for scalability.

Book Author Management System, Taalif

📅 AUG 2025 - OCT 2025

Link - <https://taalif.cloud>

- Built a multi-role publishing system (React.js, Django, Tailwind) with Stripe payments, real-time chat/notifications, multi-language support, SaaS multi-tenant architecture, and Google Cloud deployment

Player Scouting App, Play Pulse

📅 APR 2025 - JUL 2025

Built a cross-platform scouting app with Flutter and Django, enabling real-time player evaluations. Used WebSockets and Firebase for instant updates and notifications. Ensured scalable architecture, secure login, and responsive UI; deployed on AWS with CI/CD.

Developed **6+ enterprise-level applications** for clients under **NDA agreements**, which are not publicly available, demonstrating experience in large-scale, production-grade software development.
